

Rain in your lounge?

Ah, rain. It nourishes us, our plants, and our planet. However, sometimes rain can get a bit carried away and during extreme rain it's important to know what to do. When rain starts dripping in your house, visit the SES website. When rain is flooding the neighbourhood, dial 000. However, when rain floods your lounge, dial 132-500 for the SES. Because sometimes, it rains in lounges.
